Acquisition of Intellectual Property Rights

Patent, Trademark, Design Patent, and Copyright

Acquisition of Patent Right

An idea relative to technology is possible to be a target being protected by a patent as an invention.

To appropriately acquire a patent right, the investigation in the filed of technology is needed, and the scope of right has to be set accurately.

Acquisition of Trademark and Design Patent

A logo indicating your products and services needs to be registered, otherwise some company would take a dvantage of your trust without any consent.

On the other hand, a creative design can be registered as a design.
